**Attention Truck Committees and Specifiers of Fire & Rescue Apparatus**

Products shown and described in this catalog are suggested models for broad use applications throughout the firefighting industry. All models can be assembled to dimensionally fit your unique applications and space requirements, and all our components are designed for multiple configurations.

For special orders, contact your Hannay dealer or call our Inside Sales Group.

**Top performance. Extreme conditions.**

Safety and quick response time are critical when it comes to fighting fires. Our reels make payout and pickup quicker so you can work more efficiently and effectively when every second counts. That's why Hannay Reels is the #1 reel company specified by OEMs and professionals worldwide, based on product reliability, ease of use, and long life. When it comes to keeping your crew and your community safe, you can trust Hannay Reels.

**Types of Firefighting reels:**

**Booster Hose Reels** – Quick first-attack for small fires or while larger volume hoses are being set up.

**LD (Large Diameter) Reels** – Reels for long lengths of 1-1/2" to 6" collapsible hose.

**Dual Agent Reels** – For firefighting with foam.

**Swing-Out Reels** – For aircraft rescue firefighting applications.

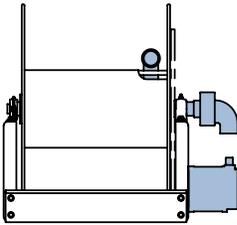

**Portable/Hand-held Reels** – For hose or cable applications.

Mounting Hole Sizes for Firefighting Reels	
Pressed Frame Reels and Channel Framed Reels	7/16" wide x 7/8" long slot running left to right
Series 4000 Reels	13/32" round holes
Series LD Reels	5/8" round holes

# How to Specify **Hannay Reels**

## Optional Location of Components

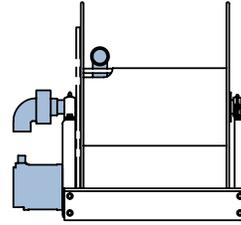

Location of the inlet, outlet riser, and rewind mechanism can be varied to meet your requirements and **must be specified on your order**. The drawings below show the component locations. Unless otherwise specified, most reels will be shipped as **Right Top Rewind** with the inlet, outlet riser, and rewind mechanism on the operator's right.

### RT – Right Top Rewind

Reels have the inlet, outlet riser, and rewind mechanism on the operator's right. Hose unwinds from the top of the reel.

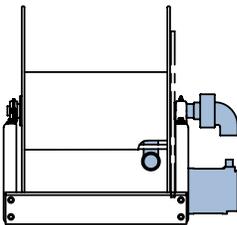

**Standard** – Always look at your reel from this position to determine right-hand or left-hand.

### LT – Left Top Rewind

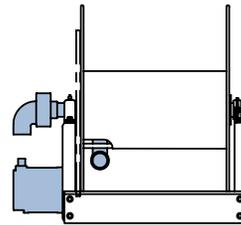

Reels have the inlet, outlet riser, and rewind mechanism on the operator's left. Hose unwinds from the top of the reel.

**Standard** for 1500, 1800, 2000 & 4000 Series reels.

### RB – Right Bottom Rewind

Reels have the inlet, outlet riser, and rewind mechanism on the operator's right. Hose unwinds from the bottom of the reel.

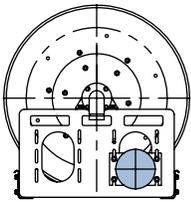

### LB – Left Bottom Rewind

Reels have the inlet, outlet riser, and rewind mechanism on the operator's left. Hose unwinds from the bottom of the reel.

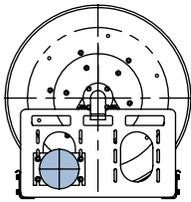

**Note:** Use component location initials as suffix after model number (ie; EF32-23-24 **RT**)

## Optional Motor Locations

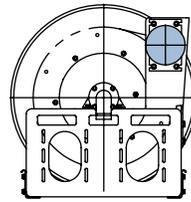

Electric rewind motors can be installed in any of the positions shown in these drawings. The Bottom Rear position is standard. The motor is installed inside the frame on Model ESF reels, which are designed for installation in restricted space.

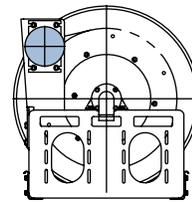

**Bottom Rear (Standard)**

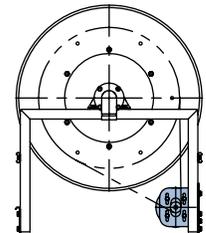

**Bottom Front**

**Elevated 2 O'clock (REF Reels)**

**Elevated 10 O'clock (REF Reels)**

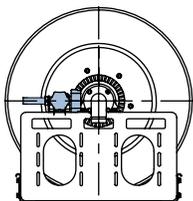

**Inboard (ESF Reels)**

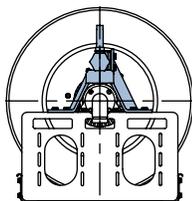

## Optional Auxiliary Rewind Positions

Horizontal ring and pinion gear crank rewind mechanism is the standard configuration.

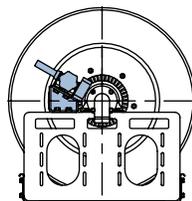

Optional positions include vertical and 30° above centerline, as shown in these drawings. Both are available at extra cost and **must be specified**.

**Horizontal (Standard)**

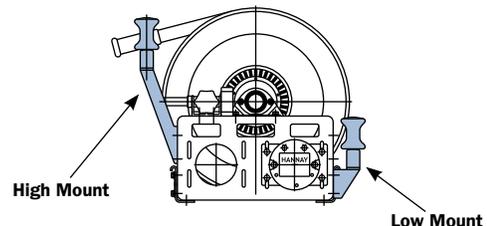

**Vertical**

**30° Angle**

## Optional Roller Positions

Optional roller assembly mounting kits, up to 2 of either, can be mounted per reel. Consult factory, and indicate installation location – front or rear of reel.

# Series **F4000** | For Booster Hose

• **Compact Reels**

**To handle single 3/4" or 1" I.D. hose.**

- Manual rewind reels include: cam-lock drag brake, spring actuated pin lock and removable direct crank rewind.
- Power rewind reels include: chain and sprocket drive powered by electric or compressed air motor. Strap brake is standard.
- Standard inlet: 90° ball bearing swivel joint, 1" female NPT threads.
- Standard outlet: 1" male NST threads (1.375" x 8 threads per inch).
- Consult factory for other sizes and/or threads.
- Standard inlet, outlet riser and hub assembly are steel (also available in stainless steel).
- Rollers and roller mounting brackets are accessory items. Specify roller position.
- Standard pressures to 1000 psi (69 bar).
- Standard fluid temperatures from -40° F to +250 °F (-40° C to +121° C).
- Consult factory for other pressures and temperatures.

Standard configuration shown with Electric Rewind (E) option

**CAUTION:** F4000/F4100 Series reels **not** recommended for use with Niedner|Altra® hose. See page 15.

**PARTS DRAWING – ISO 68**

**Optional External Mounting Brackets**

Part No. 9906.0025.  
Add 2-1/2" to the X dimensions shown in the chart.

**Notes:**

1. Specifications subject to change.
2. Upon request, reels can be supplied with drum lengths other than shown and with disc sizes in other diameters.
3. Weights shown in chart are for crank rewind models. ADD these amounts for power rewind models. (does not apply to FedEx or UPS):
 

	Net lbs/kg	Ship lbs/kg
<b>Electric</b>	<b>18/8.2</b>	<b>18/8.2</b>
<b>Air</b>	<b>15/6.8</b>	<b>15/6.8</b>
4. Dimension "F" is the overall length of standard model reels. On crank rewind models, the dimension shown is with the crank in rewind position. Reels require 3-1/2" clearance to remove crank handle.
5. When ordering power rewind models, prefix model number with:
  - A** = Air Rewind – supplied with control valve and 18" air hose.
  - E** = Electric Rewind (1/3 HP) – 12v and 24v DC rewind reels supplied with switch and solenoid. 115v AC rewind reels are not supplied with switch, but can be ordered separately.
6. Be sure to check dimensions and weights prior to ordering.
7. Some roller options may prohibit the use of our molded chain guard.

**NOTICE:** A flexible connector must be used between the inlet pipe and the inlet swivel joint.  
\*Dimensional weight applies when shipped as a parcel package (via FedEx or UPS Ground).  
\*\*\* X, Y indicate mounting holes.

# Series F4100

**To handle single 3/4" or 1" I.D. hose.**

- Lightweight, compact reels designed for long lengths of hose in manual and power rewind.
- Gear-driven crank rewind with removable handle and adjustable brake is standard.
- Power rewind reels include: chain and sprocket drive powered by electric or compressed air motor.
- Standard inlet: 90° ball bearing swivel joint, 1" female NPT threads.
- Standard outlet: 1" male NST threads.
- Rollers and roller mounting brackets are accessory items. Specify roller position.
- Standard pressures to 1000 psi (69 bar).
- Standard fluid temperatures from -40° F to +250 °F (-40° C to +121° C).
- Consult factory for other pressures and temperatures.

Standard configuration shown with Electric Rewind (E) option and gear-driven crank rewind

**CAUTION:** F4000/F4100 Series reels **not** recommended for use with Nieder|Altra® hose. See page 15.

# Series **F/SBF** | For Booster Hose

**To handle 3/4" or 1" I.D. hose.**

- Standard booster hose reel is steel, painted graphite. Aluminum or stainless steel construction is also available.
- Super Booster (SBF) polished aluminum construction reel weighs up to 30% less than standard booster reel. Prefix complete model number with "SB" when ordering. See Note 6 on page 7.
- Gear-driven crank rewind is standard. Choose chain and sprocket drive powered by electric or compressed air motor.
- Pinion brake standard.
- Standard inlet: 1" 90° ball bearing swivel joint with 1" female NPT threads.
- Standard outlet: 1" male NST threads. (1.375" x 8 threads per inch.)
- Consult factory for other sizes and/or threads.
- Standard inlet, outlet riser, and hub assembly are steel (also available in stainless steel).
- Rollers and roller mounting brackets are accessory items. Specify roller position.
- Standard pressures to 1000 psi (69 bar).
- Standard fluid temperatures from -40° F to +250 °F (-40° C to +121° C).
- Consult factory for reels to operate at other pressures and temperatures.

Shown with Electric Rewind (E), optional red finish and optional roller and spool assembly

**Twin Fire Reel Conversion Kit is also available. Refer to page 10.**

**CAUTION:** When using Niedner|Altra® hose, a special riser and/or larger drum diameter is required.

See chart for capacity on page 1, or consult factory.

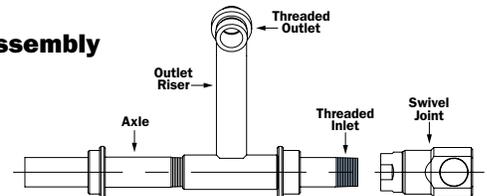

## Hub Assembly Options

The hub assembly is the heart of the hose reel. It includes the outlet riser, the reel axle, and the threaded inlet to which the swivel joint is attached. The swivel joint permits the reel to rotate freely while connected to the fluid source.

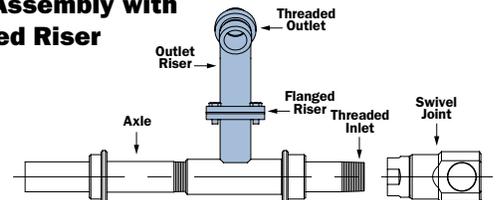

The outlet riser is engineered to conform to the contour of the drum so the hose lies smoothly against the drum without kinking. Smooth interior surfaces are flow-contoured for unrestricted flow and minimal pressure loss through the reel.

A 2-way flow hub assembly is available on certain models as an option. On this assembly, the reel axle is threaded on both ends so the swivel joint can be attached at either end to match piping. A pipe cap is supplied to seal the opposite end.

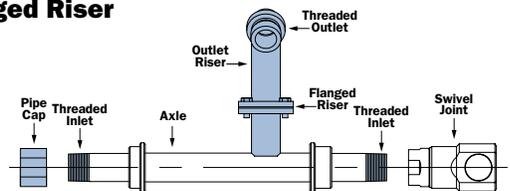

### Standard Hub Assembly

### Standard Hub Assembly with Optional Flanged Riser

### Optional 2-Way Hub Assembly with Optional Flanged Riser

### PARTS DRAWING: SERIES F – ISO 84; SERIES SBF SUPER BOOSTER® – ISO 122

#### Notes:

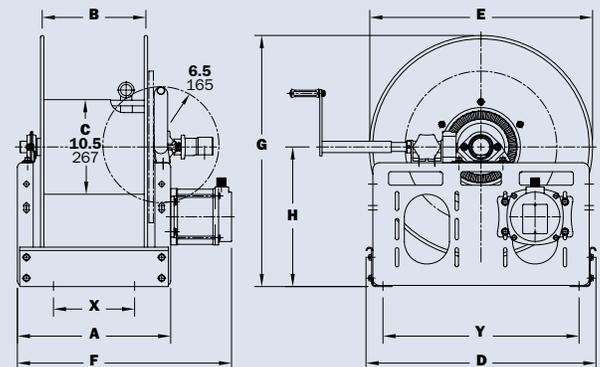

- Specifications subject to change.
- A 2-way flow hub is available and must be specified. Assembly is threaded on both ends so swivel joint can be attached at either end of the reel. A pipe cap seals the opposite end. (See Ordering & Accessory Guide.)
- Upon request, reels can be supplied with drum lengths other than shown and with disc sizes in other diameters.
- Weights shown in chart are for crank rewind models. ADD these amounts for power rewind models:
 

	Net lbs/kg	Ship lbs/kg
<b>Electric (E)</b>	20/9.1	20/9.1
<b>Electric (EP)</b>	40/18.1	40/18.1
<b>Air</b>	20/9.1	20/9.1
- When ordering power rewind models, prefix model number with:
  - A** = Air Rewind – supplied with control valve and 18" air hose.
  - E** = Electric Rewind (1/3 HP)
  - EP** = Electric Rewind (1/2 HP) – 12v and 24v DC rewind reels supplied with switch and solenoid. 115v AC rewind reels are not supplied with switch, but can be ordered separately.
- For polished aluminum reels, prefix complete model number with "SB" (for example: SBEF 32-19-21).
- When installing FH-3 rollers, add 4-1/2" to the "D" dimension.
- Be sure to check dimensions and weights prior to ordering.**

**NOTICE:** A flexible connector must be used between the inlet pipe and the inlet swivel joint.

\*The "F" dimension for these models is shown for 1/3 HP motors. Add 2" to "F" dimension for 1/2 HP motors. The "F" dimension for all other reels is shown for 1/2 HP. Reels handling 175' or more must use 1/2 HP motor. (Use prefix EP when ordering.)

\*\*\* X, Y indicate mounting holes.

# Series **ESF/SBESF** | For Booster Hose

• **Inboard Mounted Motor**

**To handle 3/4" or 1" I.D. hose.**

- Inboard motor location high profile.
- Standard booster hose reel is steel, painted graphite. Aluminum or stainless steel construction is also available.
- Super Booster (SBSF) polished aluminum construction reel weighs up to 30% less than standard booster reel. Prefix complete model number with "SB" when ordering. See Note 6 on page 9.
- Pinion brake standard.
- Standard inlet: 1" 90° ball bearing swivel joint with 1" female NPT threads.
- Standard outlet: 1" male NST threads (1.375" x 8 threads per inch).
- Consult factory for other sizes and/or threads.
- Standard inlet, outlet riser, and hub assembly are steel (also available in stainless steel).
- Rollers and roller mounting brackets are accessory items. Specify roller position.
- Standard pressures to 1000 psi (69 bar).
- Standard fluid temperatures from -40° F to +250 °F (-40° C to +121° C).
- Consult factory for other pressures and temperatures.

**CAUTION:** When using Niedner|Altra® hose, a special riser and/or larger drum diameter is required.

See chart for capacity on page 15, or consult factory.

Standard configuration shown with Manual Rewind

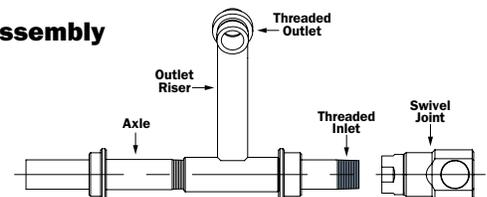

## Hub Assembly Options

The hub assembly is the heart of the hose reel. It includes the outlet riser, the reel axle, and the threaded inlet to which the swivel joint is attached. The swivel joint permits the reel to rotate freely while connected to the fluid source.

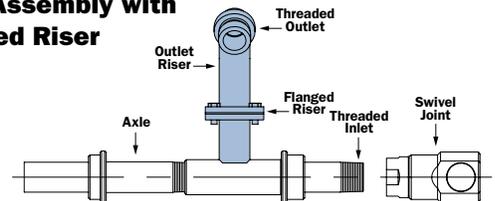

The outlet riser is engineered to conform to the contour of the drum so the hose lies smoothly against the drum without kinking. Smooth interior surfaces are flow-contoured for unrestricted flow and minimal pressure loss through the reel.

A 2-way flow hub assembly is available on certain models as an option. On this assembly, the reel axle is threaded on both ends so the swivel joint can be attached at either end to match piping. A pipe cap is supplied to seal the opposite end.

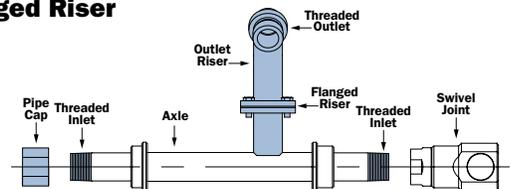

### Standard Hub Assembly

### Standard Hub Assembly with Optional Flanged Riser

### Optional 2-Way Hub Assembly with Optional Flanged Riser

For Booster

**Notes:**

- Specifications subject to change.
- A 2-way flow hub is available and must be specified. Assembly is threaded on both ends so swivel joint can be attached at either end of the reel. A pipe cap seals the opposite end. (See Ordering & Accessory Guide.)
- Upon request, reels can be supplied with drum lengths other than shown and with disc sizes in other diameters.
- When ordering power rewind models, prefix model number with:  
**E** = Electric Rewind (1/3 HP)  
**EP** = Electric Rewind (1/2 HP) – 12v and 24v  
 DC rewind reels supplied with switch and solenoid. 115v AC rewind reels are not supplied with switch, but can be ordered separately.
- For polished aluminum reels, prefix complete model number with "SB" (for example: SBESF32-19-21).
- All frames are rollformed channel, except Super Booster®, which is square tubing.
- Be sure to check dimensions and weights prior to ordering.**

**NOTICE:** A flexible connector must be used between the inlet pipe and the inlet swivel joint.

\* Reels handling 175' or more of 1" must use 1/2 HP motor.

\*\*\* X, Y indicate mounting holes.

# Series **FF/SBFF**

• Large Diameter Booster Hose • Preconnected Collapsible Hose

**To handle 1-1/4" or 1-1/2" I.D. booster hose or 1-1/2" or 1-3/4" I.D. collapsible hose.**

- Standard booster hose reel is steel, painted graphite. Aluminum or stainless steel construction is also available.
- Super Booster (SBFF) polished aluminum construction reel weighs up to 30% less than standard booster reel. Prefix complete model number with "SB" when ordering. See Note 6 on page 11.
- Gear-driven crank rewind is standard. Choose chain and sprocket drive powered by electric or compressed air motor.
- Pinion brake standard.
- Standard inlet: 1-1/2" 90° ball bearing swivel joint with 1-1/2" female NPT threads and 2" Victaulic® groove.
- Standard outlet: 1-1/2" male NST threads. (1.990" x 9 threads per inch.)
- Consult factory for other sizes and/or threads.
- Standard inlet, outlet riser, and hub assembly are steel (also available in stainless steel).
- Rollers and roller mounting brackets are accessory items. Specify roller position.
- Standard pressures to 600 psi (41 bar).
- Standard fluid temperatures from -20° F to +212 °F (-29° C to +100° C).
- Consult factory for other pressures and temperatures.

Standard configuration shown with Electric Rewind (EP) and optional polished aluminum construction

**CAUTION:** When using Niedner|Altra® hose, a special riser and/or larger drum diameter is required.

See chart for capacity on page 15, or consult factory.

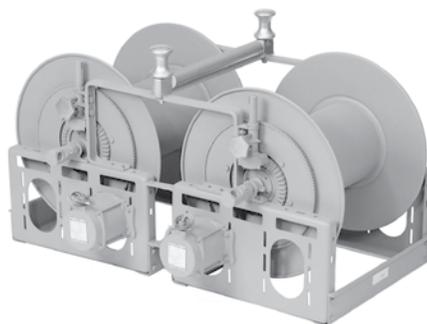

## Optional

# Twin Fire Reel **Conversion Kit** | For Booster Hose

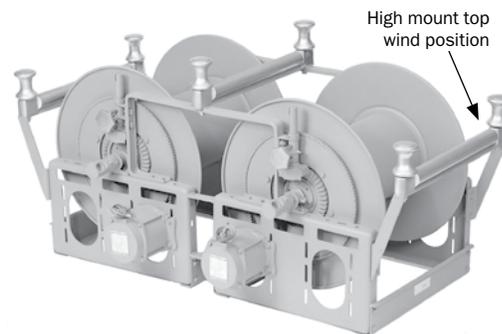

### For Series F and FF.

Twin booster hose reels combine matched F or FF Series reels in a single unit with a center-mounted roller and spool assembly. Hose from both reels can be used on either side of the truck. Rugged unit frame construction maintains alignment and simplifies installation when two reels are combined.

**Consult dealer or factory for more information.**

Two F Series reels, and a standard Twin Fire Reel Conversion Kit

Two F Series reels, a Twin Fire Reel Conversion Kit, and two optional outrigger roller assemblies

# Series FF/SBFF

• Large Diameter Booster Hose • Preconnected Collapsible Hose

**Notes:**

- Specifications subject to change.
- Dimensions up to and including 30-31 disc size reflect pressed frames. All others are rollformed channel frames, except Super Booster®, which is square tubing.
- Upon request, reels can be supplied with drum lengths other than shown and with disc sizes in other diameters.
- Weights shown in chart are for crank rewind models. ADD these amounts for power rewind models.
 

	Net lbs/kg	Ship lbs/kg
Electric	40/18.1	40/18.1
Air	20/9.1	20/9.1
- When ordering power rewind models, prefix model number with:
  - A** = Air Rewind – supplied with control valve and 18" air hose.
  - EP** = Electric Rewind (1/2 HP) – 12v and 24v DC rewind reels supplied with switch and solenoid. 115v AC rewind reels are not supplied with switch, but can be ordered separately.
- For polished aluminum reels, prefix complete model number with "SB" (for example: SBEPFF28-23-24).
- Be sure to check dimensions and weights prior to ordering.**

**NOTICE:** A flexible connector must be used between the inlet pipe and the inlet swivel joint.

\*\*\* X, Y indicate mounting holes.

## Series **F3100/FF3600**

### • Industrial Fire Protection

#### To handle 3/4" through 1-1/2" I.D. booster hose or 1" through 1-3/4" I.D. collapsible hose.

- The reel can be installed on the floor or wall.
- Steel construction is standard. Aluminum or stainless steel construction is available.
- Removable direct crank rewind.
- Supplied with spring actuated pin lock.
- Standard inlet, outlet riser, and hub assembly are steel (also available in stainless steel).
- Rollers and roller mounting brackets are accessory items. Specify roller position.

#### Series **F3100**

- Standard inlet: 1" 90° ball bearing swivel joint with 1" female NPT threads.
- Standard outlet: 1" male NST threads (1.375" x 8 threads per inch).
- Standard pressures to 1000 psi (69 bar).
- Standard fluid temperatures from -40° F to +250 °F (-40° C to +121° C)

#### Series **FF3600**

- Standard inlet: 1-1/2" 90° ball bearing swivel joint with 1-1/2" female NPT threads and 2" Victaulic® groove.
- Standard outlet: 1-1/2" male NST threads (1.990" x 9 threads per inch).
- Standard pressures to 600 psi (41 bar).
- Standard fluid temperatures from -20° F to +212 °F (-29° C to +100° C).

#### Both Series

- Consult factory for other sizes and/or threads.
- Consult factory for other pressures and temperatures.

**CAUTION:** When using Niedner|Altra® hose, a special riser and/or larger drum diameter is required (consult factory). See page 15.

**F3100 Series**

**FF3600 Series**

**Notes:**

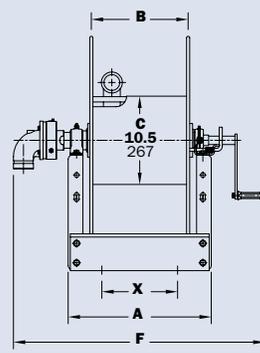

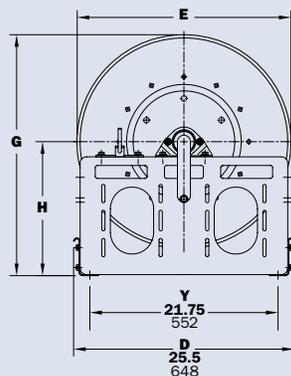

- Specifications subject to change.
- Upon request, reels can be supplied with drum lengths other than shown and with disc sizes in other diameters.
- Power rewind is not available on these models. See Series F or FF.
- 4" clearance needed for crank handle removal.
- Be sure to check dimensions and weights prior to ordering.**

**NOTICE:** A flexible connector must be used between the inlet pipe and the inlet swivel joint.

\*\*\*X, Y indicate mounting holes.

F3100

FF3600

# Series **F7100** | Dual Hose

• **Dual Agent Applications**

**To handle dual 3/4" through 1" I.D. hose.**

- Two swivel joint inlets and two outlet risers.
- All models are available with optional aluminum or stainless steel construction. Super Booster (SB) polished aluminum construction reel weighs up to 30% less than standard booster reel. Prefix complete model number with "SB" when ordering.
- Gear-driven crank rewind is standard. Choose chain and sprocket drive powered by electric or compressed air motor.
- Pinion brake standard.
- Standard inlets: 1" 90° ball bearing swivel joint, 1" female NPT threads.
- Standard outlets: 1" male NST threads (1.375" x 8 threads per inch).
- Standard inlet, outlet riser, and hub assembly are steel (also available in stainless steel).
- Consult factory for other sizes and/or threads.
- Standard pressures to 1000 psi (69 bar).
- Standard fluid temperatures from -40° F to +250 °F (-40° C to +121° C).
- Consult factory for other pressures and temperatures.
- Rollers and roller mounting brackets are accessory items. Specify roller position.

**SBEPF7100 Series shown**

Standard configuration shown with optional aluminum construction (SB), Electric Rewind (EP) and roller and spool assembly high mount

**CAUTION:** When using Niedner|Altra® hose, a special riser and/or larger drum diameter is required (consult factory). See page 15.

**Notes:**

- Specifications subject to change.
- These reels require a special angle riser and larger diameter drum; consult factory.
- For F Series – Refer to notes and diagram on page 7.
- For FF Series – Refer to notes and diagram on page 11.

**NOTICE:** A flexible connector must be used between the inlet pipe and the inlet swivel joint.  
 \*The "F" dimension for these models is shown for 1/3 HP motors. Add 2" to "F" dimension for 1/2 HP motors. The "F" dimension for all other reels is shown for 1/2 HP. Reels handling 200' or more must use 1/2 HP motor. (Use prefix EP when ordering.)  
 \*\*\* X, Y indicate mounting holes.

# Series HDLD Reels and Spools Large Diameter

**Reels and spools to handle up to 6" I.D. collapsible hose.**

**Typical Installations:**

Single large-capacity reel installed in the hose bed area to handle long lengths of pre-coupled hose. Hose pays out from the top of the reel so gravity assists unwinding.

Two reels installed in the hose bed. In this arrangement, the upper reel is unloaded only if necessary. Payout and rewinding of the upper reels are facilitated by the position of the lower reel. Two reels with larger-diameter discs and narrower drums can also be installed side-by-side in the rear of the hose bed to handle approximately the same amount of hose. This method allows a center walkway or paying out two lines simultaneously if required.

- Square tubing frames.
- Heavy-gauge steel discs.
- Drums are formed by reinforced tie rods with radial supports.
- Pillow block ball bearings.
- Chain and sprocket rewind with hydraulic rewind motor.
- Hydraulic caliper disc brake.

**Hydraulic Requirements**

- It is important that the end-user provide Hannay Reels with complete specifications as to the required operation of the large diameter reel being specified. Any speed and torque requirements **MUST** be known to properly specify the correct reel for the application.
- Hannay Reels does not recommend specific brands for hydraulic system components. We suggest you work with your hydraulic component supplier to meet your specs.

**Consult factory for complete specifications on an LD reel to meet your requirements.**

**Important:** Hose capacity is based on the flat hose dimensions listed below, with couplings at 100 foot intervals.

**Flat Hose Dimensions**

I.D.	Thick x Width	
	in	mm
2"	3/4 x 3-1/2	19 x 89
2-1/2"	3/4 x 4	19 x 102
3"	1/2 x 5	13 x 127
4"	1/2 x 6-1/2	13 x 166
5"	1/2 x 8	13 x 204
6"	1/2 x 10	13 x 254

**Custom sizes are available to meet specific needs.**

#### Version F Reel:

Complete reel assembly with No. 50 chain and sprocket and hydraulic rewind motor mounted inside the frame. When ordering, prefix model number with HD (for example: HDLD 350-64 version F).

#### Notes:

1. Specifications subject to change.
2. Upon request, reels can be supplied with drum lengths other than shown and with disc sizes in other diameters.
3. Be sure to check dimensions and weights prior to ordering.

#### VERSION F

# Rescue Reels

**Hannay Reels. Durable reels you can depend on.**

When it's all on the line – Hannay reels are ready when you are. Our ruggedly designed and constructed rescue reels save space on your truck and help make your payout and pickup quicker and easier.

All of our reels are built to individual vehicle specs because we know that every truck manufacturer's design is different. Rely on Hannay Reels when you need to deliver big performance in tight spaces.

The rugged **1500 Series** hose reel is ideal for utility air (or breathing air when specified). The **1600 Series** reel handles live electric cable and is invaluable when you need power at the scene of an emergency.

The reels from the **2000, 2200, and 2500 Series** are all dual hose reels unsurpassed in rescue situations that require hydraulic hose for power tools such as cutters, spreaders, or jacks.

**Summary of Standard and Optional Features for Rescue Reels**

Series EF1500	Series ECR1600	Series EF2000	Series TEF				
<ul style="list-style-type: none"> <li>• 12v motor (with switch, solenoid)</li> <li>• 1/2" FNPT outlet riser</li> <li>• 1/2" FNPT inlet swivel</li> <li>• Utility air service</li> <li>• Steel construction, graphite paint finish</li> </ul>	<ul style="list-style-type: none"> <li>• 12v motor (with switch, solenoid)</li> <li>• 3-conductor slip ring</li> <li>• Steel construction, graphite paint finish</li> </ul>	<ul style="list-style-type: none"> <li>• 12v motor (with switch, solenoid)</li> <li>• Outlet risers provided per specified tool manufacturer</li> <li>• 1/4" FNPT inlet swivel</li> <li>• Steel construction, graphite paint finish</li> </ul>	<ul style="list-style-type: none"> <li>• Chain &amp; sprocket drive with two electric gear motors</li> <li>• Dual spools for two independent operations</li> <li>• Removable chain guard</li> <li>• Steel construction, graphite paint finish</li> </ul>

# Series FN700

• Utility Air or Breathing Air Hose

**To handle 3/16" through 1/2" I.D. hose.**

- Heavy-duty spring motor.
- Narrow frame and compact mounting base.
- Non-sparking ratchet assembly.
- Declutching arbor to prevent damage from reverse winding.
- \*\* Standard inlet: 90° balanced pressure swivel joint, 1/2" female NPT threads. Full flow swivel joint required for breathing air (FLN and FHN).
- \*\* Standard outlet: 1/2" female NPT threads. Other sizes and threads can be furnished and must be specified.
- FN and FLN700 reels: pressures to 3000 psi (207 bar).
- FHN700 reels: pressures up to 6000 psi (414 bar).
- Standard fluid temperatures from -40° F to +250 °F (-40° C to +121° C).
- Consult factory for other pressures and temperatures.
- 4-way roller assembly is standard. Roller position must be specified.
- Constant tension is available – consult factory.
- Hose stop required. Order Part No. 9922.0200. Must specify hose O.D.

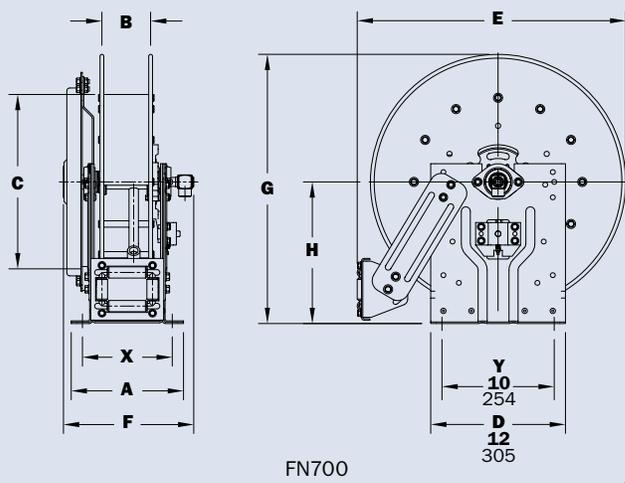

Standard SR configuration shown with optional stainless steel full flow swivel joint for breathing air

**Notes:**

- Specifications subject to change.
  - Reel models and capacities shown are for standard drag applications; for vertical lift or constant tension applications, consult factory.
  - Other sizes, from standard components, available on request.
  - Model Designations:
    - FN** = Utility air applications
    - FLN** = Low pressure breathing air applications. Add 1.12" to F dimension.
    - FHN** = High pressure breathing air systems (6000 psi). Add 1.5" to F dimension. For example: **FHN 716-14-16C** is a high pressure breathing air reel.
  - Be sure to check dimensions and weights prior to ordering.**
- NOTICE:** A flexible connector must be used between the inlet pipe and the inlet swivel joint.  
 \*Dimensional weight applies when shipped as a parcel package (via FedEx or UPS Ground).  
 \*\* Stainless steel internals are required for breathing air applications.

**Available Roller Positions**

## Series TEF

• Power Rescue Tools • Hydraulics • Utility or Breathing Air • Electric Cable

Series TEF reels can be built in any combination of hydraulic, air or electric cable applications.

### TEF2500 SERIES: To handle dual hydraulic 1/4" I.D. hose.

- Chain and sprocket drive powered by an electric gear motor.
- Standard inlets: Two 90° dual passage swivel joints with 1/4" female NPT threads.
- Standard outlets: Rescue tool manufacturer must be specified to determine threads and packing material required.
- Pressures to 10,500 psi (724 bar).
- Standard fluid temperatures from -40° F to +250 °F (-40° C to +121° C). Optional temperature ratings available - consult factory.
- Dual spools to operate 2 independent hydraulic rescue tools.
- Removable chain guard for added safety and easy maintenance.
- Optional 4-way rollers and mounting brackets available with adjustable positions including: forward-facing, vertically-facing and 30° angle.

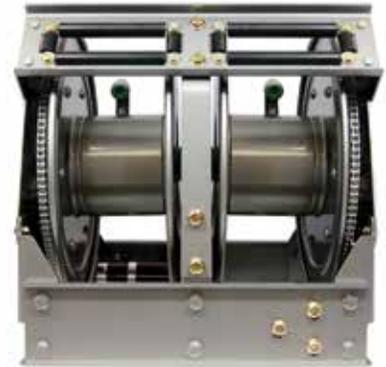

**TEF2500 Series**

Standard configuration shown with optional rollers in Bumper Mount position

### TEF1500 SERIES: To handle single 1/4", 3/8", and 1/2" I.D. hose.

- Chain and sprocket drive powered by an electric gear motor.
- \*\*Standard inlet: 90° ball bearing swivel joint, 1/2" female NPT threads.
- \*\*Standard outlet: 1/2" female NPT threads. Other sizes and threads can be furnished and must be specified.
- Available for Low PSI breathing air to 3000 psi (207 bar) and High PSI breathing air to 6000 psi (414 bar). See Notes 3 & 4 below for model and dimension specifications.
- Standard fluid temperatures from -15° F to +250 °F (-26° C to +121° C). Optional temperature ratings available - consult factory
- Dual spools to operate 2 independent air hoses.
- Removable chain guard for added safety and easy maintenance.
- Optional 4-way rollers and mounting brackets available with adjustable positions including: forward-facing, vertically-facing and 30° angle.

**TEF1500 Series**

Standard configuration shown with optional rollers in 30 Degree Tipped position

### TEF1600 SERIES: To handle live electric cable.

- Chain and sprocket drive powered by an electric gear motor.
- 3-conductor, 30-amp collector assembly with #10 gauge wiring.
- Optional 4-conductor available, must specify.
- Dual spools to operate 2 independent electric power tools.
- Removable chain guard for added safety and easy maintenance.
- Optional 4-way rollers and mounting brackets available with adjustable positions including: forward-facing, vertically-facing and 30° angle.

**TEF1600 Series**

Standard configuration shown with optional rollers in 30 Degree Tipped position

Optional 4-way Rollers with adjustable positions available, see available roller positions below. Consult factory for specifications.

**TEF 1500 SERIES:**

- For Low PSI breathing air to 3000 psi (207 bar), prefix model number with "TEFL" and add 3/8" to F dimension for **each** spool.
- For High PSI breathing air to 6000 psi (414 bar), prefix model number with "TEFH" and add 1" to F dimension for **each** spool.

**Available Roller Positions**

# Series **F1500/FL1500/FH1500**

• Utility Air or Breathing Air Hose

**To handle single 1/4", 3/8", and 1/2" I.D. hose.**

- Lightweight, compact reels designed for long lengths of hose in manual and power rewind.
- Manual rewind reels include: cam-lock drag brake, spring actuated pin lock and direct crank rewind.
- Power rewind reels include: chain and sprocket drive powered by electric or compressed air motor.
- \*\* Standard inlet: 90° ball bearing swivel joint, 1/2" female NPT threads.
- \*\* Standard outlet: 1/2" female NPT threads. Other sizes and threads can be furnished and must be specified.
- Roller and roller mounting brackets are accessory items. Specify roller position.
- F and FL1500 reels: pressures to 3000 psi (207 bar).
- FH1500 reels: pressures up to 6000 psi (414 bar).
- Standard fluid temperatures from -40° F to +250 °F (-40° C to +121° C). Optional temperature ratings available - consult factory.

Standard configuration shown with Electric Rewind (E) option and optional hose package

**Optional External Mounting Brackets**

Part No. 9906.0027.  
Add 2-1/2" to the X dimensions shown in the chart.

**PARTS DRAWING – ISO 90**

	107	183	84	122	53	13	36	432	305	419	483	641	584	394

**Notes:**

1. Specifications subject to change.
2. Upon request, reels can be supplied with drum lengths other than shown and with disc sizes in other diameters.
3. Weights shown in chart are for manual rewind models. Add these amounts for power rewind models (does not apply to FedEx or UPS):

	Net lbs/kg	Ship lbs/kg
<b>Electric</b>	<b>18/8.2</b>	<b>18/8.2</b>
<b>Air</b>	<b>15/6.8</b>	<b>15/6.8</b>

4. When ordering power rewind models, prefix model number with:
  - A** = Air Rewind
  - E** = Electric Rewind
 (Air rewind reels are supplied with control valve and 18" air hose; 12v and 24v DC rewind reels are supplied with switch and solenoid.)
5. Model Designations:
  - F1500** = Utility Air Applications
  - FL1500** = Low Pressure Breathing Air Applications

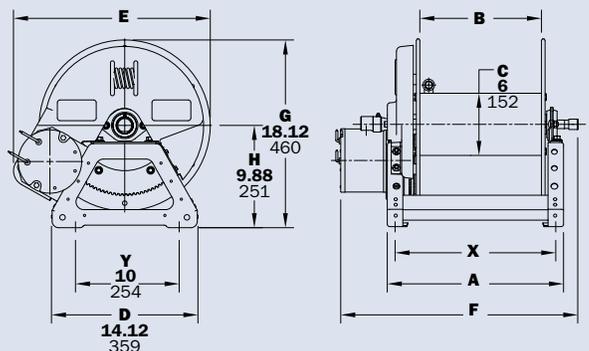

- FH1500** = High Pressure Breathing Air Cascade Systems  
For example: **EFL1514-17-18**=Electric Rewind, Low Pressure Breathing Air.
6. Add 2-1/2" to "E" dimension and 1/2" to "G" dimension with assembly "C" roller installed in top wind (TR) position.
  7. Manual rewind available in RT or LB configurations only.
  8. **Be sure to check dimensions and weights prior to ordering.**
  9. Some roller options may prohibit the use of our molded chain guard.

**NOTICE:** A flexible connector must be used between the inlet pipe and the inlet swivel joint.

\* Dimensional weight applies when shipped as a parcel package (via FedEx or UPS Ground).

\*\* Stainless steel internals are required for breathing air applications.

\*\*\* X, Y indicate mounting holes. See page 18.

# Series **ELF1500/ESF1500**

• Utility Air or Breathing Air Hose

**To handle 1/4", 3/8", and 1/2" I.D. hose.**

- Chain and sprocket drive powered by an electric gear motor.
- \*\* Standard inlet: 90° swivel joint with 1/2" female NPT threads.
- \*\* Standard outlet: 1/2" female NPT thread.
- Other sizes/threads can be furnished and must be specified.
- ELF and ESF1500 reels: pressures to 3000 psi (207 bar).
- ELFL and ESFL1500 reels: pressures to 3000 psi (207 bar).
- ELFH and ESFH1500 reels: pressures to 6000 psi (414 bar).
- Standard fluid temperatures from -40° F to +250 °F (-40° C to +121° C). Optional temperature ratings available - consult factory.

**Notes:**

1. Specifications subject to change.
2. Upon request, reels can be supplied with drum lengths other than shown.
3. 12v and 24v DC rewind reels supplied with switch and circuit breaker.

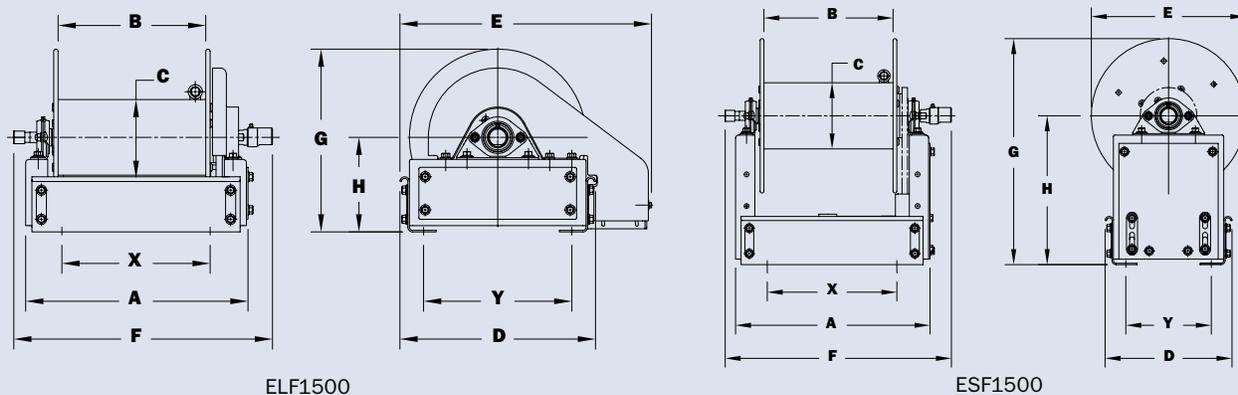

4. Model Designations:  
**ELF or ESF** = Utility Air Applications  
**ELFL or ESFL** = Low Pressure Breathing Air Applications  
**ELFH or ESFH** = High Pressure Breathing Air Cascade Systems
5. **Be sure to check dimensions and weights prior to ordering.**

**NOTICE:** A flexible connector must be used between the inlet pipe and the inlet swivel joint.

\* Dimensional weight applies when shipped as a parcel package (via FedEx or UPS Ground).

\*\* Stainless steel internals are required for breathing air applications.

\*\*\* X, Y indicate mounting holes. See page 18.

# Series **EF2000** | Dual Hose

• Power Rescue Tools • Hydraulics

**To handle dual 1/4" I.D. hose.**

- Two swivel joint inlets and two outlet risers to handle two equal lengths of hose.
- Chain and sprocket rewind powered by an electric motor.
- Optional drag brake is available. Add 3/4" to the "F" dimension shown in the chart.
- Standard inlets: 90° swivel joints, 1/4" female NPT threads.
- Standard outlets: Rescue manufacturer must be specified to determine threads and packing material required.
- Pressures to 10,500 psi (724 bar).
- Standard fluid temperatures from -40° F to +250 °F (-40° C to +121° C). Optional temperature ratings available - consult factory.
- Rollers and roller mounting brackets are accessory items. Specify roller position.
- Polished stainless steel discs and sprocket with chrome frame are available, consult factory.

Standard configuration shown

**Optional Models Available – consult factory for specifications**

ELF2000 when height of reel must be minimized

ESF2000 when depth of reel must be minimized

**Optional External Mounting Brackets**

Part No. 9906.0027.  
Add 2-1/2" to the X dimensions shown in the chart.

**PARTS DRAWING – ISO 101**

**Notes:**

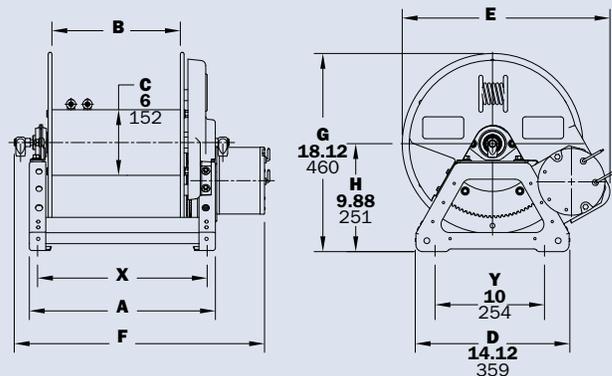

1. Specifications subject to change.
2. Upon request, reels can be supplied with drum lengths other than shown and with disc sizes in other diameters.
3. 12v and 24v DC rewind reels are supplied with switch and solenoid.
4. Add 2-1/2" to "E" dimension and 1/2" to "G" dimension with assembly "C" roller installed in top wind (TR) position.
5. **Be sure to check dimensions and weights prior to ordering.**
6. Some roller options may prohibit the use of our molded chain guard.

**NOTICE:** A flexible connector must be used between the inlet pipe and the inlet swivel joint.

\* Dimensional weight applies when shipped as a parcel package (via FedEx or UPS Ground).

\*\* Swivel joints required for Hurst Systems increase the "F" dimension. Add 3/8" for power rewind.

\*\*\* X, Y indicate mounting holes. See page 18.

Dual Hose | **Series EF2200**

• For CORE™ Hydraulic Dual Hose Rescue Tools

**To handle hydraulic Holmatro CORE Technology™ coaxial twin hose.**

- Lighter weight hose and single fitting connection when compared with traditional rescue tool hose.
- Chain and sprocket drive powered by an electric motor.
- Adjustable spring drag brake standard on all models.
- CORE Technology™ swivel joint inlet and fluid path.
- Optional factory installed 4-way roller guide available.
- Standard pressures to 10,500 psi (724 bar).
- Standard fluid temperatures from -30°F to +225°F (-34°C to +107°C).
- Divider disc separates hose from adapter block outlet.
- Optional polished stainless steel discs and sprocket with chrome frame.

Part No. 9949.0082

# Rescue Reel **Accessories**

• **Utility Hose Rollers** • **Circuit Breakers** • **Speed Control Accessories**

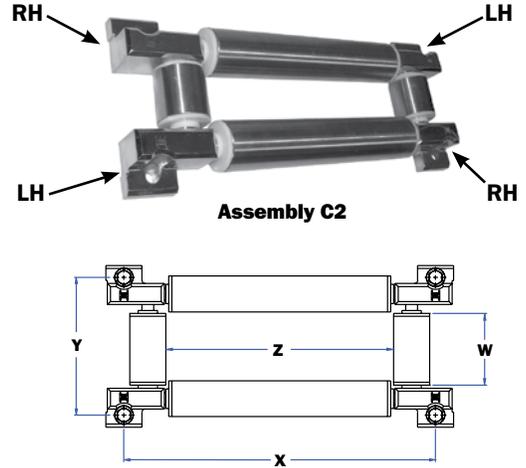

## Utility Hose Rollers

Stainless steel rollers and cast alloy mounting blocks for use on the reel, on cabinet door openings, truck platforms, and similar locations where sharp edges may cut or damage hose or cable.

**Specifications:** 1-1/2" diameter stainless steel rollers, stainless steel rod, Delrin bearings, plated mounting blocks, and fasteners.

**To Order:** If the rollers are to be mounted on a Hannay reel, just give the model number of the reel. If the rollers are to be mounted separately from the reel, give the horizontal and vertical roller lengths desired (dimensions Z and W), or the horizontal and vertical distances desired between mounting holes (dimensions X and Y).

**Also available factory installed on the reel. See Hannay parts list ISO-115 for further information.**

## RCB Kits (Reel-Mounted Relay/Circuit Breaker Modules)

RCB kits are compact, weather-resistant kits that consist of a manual reset circuit breaker and a solid state relay (which replaces the solenoid). These kits can be factory installed when ordering reels, leading to significant labor savings and eliminating the need to fabricate and mount a bracket.

RCB kits are designed to work with all rescue reel models (Series 1500, 1600, and 2000). If you already have a reel and would like to install an RCB kit yourself, call Hannay Reels or your local dealer for stand-alone pricing and part numbers.

## Speed Control Accessories

### Model MD-70

This is a variable speed control, allowing the user full control over the motor speed. Works on both 12v and 24v motors.

Order using Hannay Part No. 9917.0080.

## Speed Control Accessories

### Model MD-12HDSR

Reversing rewind switch with rocker button, variable speed control, and internal circuit protection. Good for use on all Hannay 12V DC motors. Order using Hannay Part No. 9917.0075.

**NOTE:** Several other speed controls, switches, and reversing switches are available (for 12v, 24v, and 115v). Consult factory for assistance.

# Hannay Reels **Sales Policies**

## Hannay Reels 3-Year Limited Warranty

Products manufactured by Hannay Reels, Inc. (“Hannay”) are warranted for 3 years from date of shipment when properly installed, maintained, and operated in accordance with Hannay instructions. In no event will Hannay have a warranty obligation for normal wear and tear, or for products that have, at Hannay’s determination, been subjected to accident, abuse, misapplication, improper installation or improper maintenance. Common examples of normal wear and tear would include paint finish, swivel joint seal wear, and switch or motor brush wear.

Hannay makes no warranties, express or implied, other than those included in this warranty statement, and we disclaim any implied warrant of merchantability or fitness for any particular purpose. Hannay will not be liable for any consequential, incidental, or indirect damages from any cause whatsoever.

Failure to use a flexible inlet connection on any live hose reel will void the swivel joint warranty. Failure to use a properly sized circuit breaker with any electric rewind motor will void the electric motor warranty. Failure to use a filter and lubricator on any air rewind motor will void the air motor warranty. Failure to follow all procedures outlined in the Safety Guidelines document will void the warranty.

Components not manufactured by Hannay will be subject to the original manufacturers’ warranties. Examples of such components include: hose and cable, motors, speed controls, and switches, swivel joints and seals, slip ring and brush assemblies.

Equipment which proves to be defective upon our inspection will be replaced free of charge, including freight to the customer. Our responsibility ceases upon delivery to any common carrier and we do not, unless previously instructed, insure shipments beyond point of delivery to such carrier. **No material will be accepted for return without a return goods authorization (RGA).** This warranty extends to the replacement or repair of the reel or part (no labor).

Hannay reserves the right to modify or alter materials, dimensions, design, and construction when necessary to improve the performance of the reel and/or accessories, or to meet delivery requirements.

## Notice on Reel Finish

Standard finish on Hannay reels is a high performance enamel paint. Standard color is metallic graphite. Other colors available, please consult factory.

Most of the major components on standard reels are e-coated prior to receiving final topcoat paint finish. This combination of e-coat and enamel topcoat will meet the finish requirements of most customer applications and environments.

In cases where requirements cannot be met with the standard finish, Hannay Reels can coat any model reel with an automotive primer, allowing application of final coating at your facility.

Alternatively, Hannay Reels can provide a quote for matching a customer-provided paint specification. For further information, please contact your Hannay Reels sales engineer and a special paint request form will be sent to you.

For environments where no paint finish is suitable, we offer both aluminum and stainless steel (304 grade) construction on most reel models.

## Return Goods Policy

All Hannay reels are built to order. These orders are typically placed into production within 1 business day of receipt. Once production begins, it may not be possible to cancel the order.

To prevent returns because the wrong reels or parts were ordered, please use the Hannay Reels Spec Worksheet (either online or from our Ordering & Accessory Guide) when specifying reels. Be sure to include any size, weight, pressure and/or material compatibility limitations for the application.

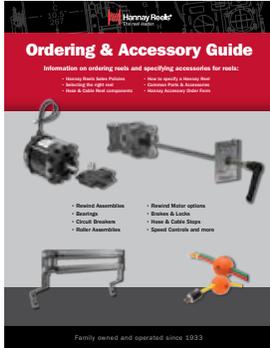

**In the event that an item does need to be returned for credit, repair or replacement, prior approval must be obtained from Hannay Reels.** Upon your request, we will send a Return Goods

Authorization (RGA) form. A signed copy of this form must accompany the material when returned to us, with the RGA number clearly showing on the outside of the box—a label is provided to you that you can print and attach. No product will be accepted for return or credit without an authorized RGA number.

All material must be returned prepaid, unless otherwise noted on our RGA. No return will be accepted that has been damaged due to improper return packaging, tampered with or altered from its original condition. Our restocking and handling fee is a minimum of 25% for standard catalog reels and parts. Custom reels specially built to customer specifications cannot be returned for any reason.
